DESIGNATION OF BENEFICIARY UNDER RETIREMENT ACT

The attention of all employees coming within the purview of the Retirement Act of May 29, 1930, as amended, is called to the fact that they are permitted to designate a beneficiary to receive the amount to their credit in the Civil Service retirement and disability fund at the time of death. Field employees desiring to name a beneficiary may obtain the required forms from the official in charge of the station.

Since the legal procedure in case of death is usually simplified by the designation of a beneficiary, it is suggested that all employees who have not yet designated a

beneficiary give serious consideration to the subject.
